SAFETY DATA SHEET

Version 3.0 Revision Date 09/04/2017

								09/04/	2017
1. PF	RODUCT AND COMPANY IDI								
1.1P	roduct identifiers								
.1	Product name Brand	: Aluminum-s : SAM	candium alloy	1	'	-		1.1	
	CAS-No.	: 113413-85-7				. '			
.2	Relevant identified uses of	the substance or mix	ture and uses advis	sed agai	nst				
	Identified uses	: Laboratory chemic	cals, Synthesis of su	bstances	3				
.3	Details of the supplier of the	e safety data sheet		: ' '			111		
1	Company	: Sigma-Aldrich 3050 Spruce Stre SAINT LOUIS MO USA			'	:		'	
	Telephone Fax	: +1 800-325-5832 : +1 800-325-5052				e e		. * *	
.4	Emergency telephone num	per							
	Emergency Phone #	: +1-703-527-3887	(CHEMTREC)						
2. HA	ZARDS IDENTIFICATION								
2,1	Classification of the substa	nce or mixture			'				
	GHS Classification in according according to the second se	gory 1), H400	1910 (OSHA HCS)					
	For the full text of the H-Sta	tements mentioned in	this Section, see S	ection 1	6.				
2.2	GHS Label elements, includ	ling precautionary sta	itements						
	Pictogram			:**				1 - 1 - 1	
	Signal word	Warning							
	Hazard statement(s) H410	Very toxic to aqu	atic life with long la	sting eff	ects.				
	Precautionary statement(s) P273 P391 P501	Avoid release to Collect spillage.	the environment. nts/ container to an		ed waste	disposal i	plant.		
2.3H	azards not otherwise classif

FIF	RST AID MEASURES						
	Description of first aid measures						
	General advice Consult a physician. Show this safety data sheet to the	doctor in attendance.			111	1 - 1 - 1	
	If inhaled If breathed in, move person into fresh air. If not breathi	ng, give artificial respira	ation. Co	nsult a ph	iysician.	'	
	In case of skin contact Wash off with soap and plenty of water. Consult a phys	sician.					
	In case of eye contact Flush eyes with water as a precaution.	:					
	If swallowed Never give anything by mouth to an unconscious perso	on. Rinse mouth with w	ater. Con	isult a phy	ysician.		
		l delayed				section	11
	Never give anything by mouth to an unconscious person Most important symptoms and effects, both acute and	l delayed				section	11
	Never give anything by mouth to an unconscious person Most important symptoms and effects, both acute and	l delayed lescribed in the labellin				section	11
	Never give anything by mouth to an unconscious perso Most important symptoms and effects, both acute and The most important known symptoms and effects are of Indication of any immediate medical attention and s needed No data available	l delayed lescribed in the labellin				section	11

Hazardous components without workplace control parameters

8.2 Exposure controls

Appropriate engineering controls

Handle in accordance with good industrial hygiene and safety practice. Wash hands before breaks and at the end of workday.

Personal protective equipment

Eye/face protection

Use equipment for eye protection tested and approved under appropriate government standards such as NIOSH (US) or EN 166(EU).

Skin protection

Handle with gloves. Gloves must be inspected prior to use. Use proper glove removal technique (without touching glove's outer surface) to avoid skin contact with this product. Dispose of contaminated gloves after use in accordance with applicable laws and good laboratory practices. Wash and dry hands.

Body Protection

Choose body protection in relation to its type, to the concentration and amount of dangerous substances, and to the specific work-place., The type of protective equipment must be selected according to the concentration and amount of the dangerous substance at the specific workplace.

Respiratory protection

Respiratory protection is not required. Where protection from nuisance levels of dusts are desired, use type N95 (US) or type P1 (EN 143) dust masks. Use respirators and components tested and approved under appropriate government standards such as NIOSH (US) or CEN (EU).

Control of environmental exposure

Prevent further leakage or spillage if safe to do so. Do not let product enter drains. Discharge into the environment must be avoided.
